High Speed Rail in California: Progress and Prospect

Tuesday, March 29

9:00 a.m. – 12:30 p.m.

Association of American Geographers
Annual Meeting
Hilton San Francisco Union Square

[Click to Register](#)

This workshop will explore in detail the plan to build the nation's first truly high-speed rail line, the progress that has been achieved thus far, and the major challenges that remain. Representatives from the CHSRA, local planning officials, and academic experts will provide a comprehensive examination of high-speed rail in California.
