

<b>UTC Project Information</b>	
Project Title	Transit Performance Measures in California (Former title: Performance Measurement and Transit Data)
University	San José State University Mineta National Transit Research Consortium
Principal Investigator	Caroline Rodier, Ph.D.
PI Contact Information	Mineta Transportation Institute San José State University 210 N. Fourth St., 4 <sup>th</sup> Floor San Jose, CA 95112 cjrodier@ucdavis.edu 916-541-4628
Funding Source(s) and Amounts Provided (by each agency or organization)	Research and Innovative Technology Administration University Transportation Centers Program (\$29,057.50)  California Department of Transportation Office of Research—MS42 (\$29,057.50)
Total Project Cost	\$58,115
Agency ID or Contract Number	DTRT12-G-UTC21
Start and End Dates	August 2013 – April 2016
Brief Description of Research Project	This research is the result of a California Department of Transportation (Caltrans) request to assess the most commonly available transit performance measures in California. Caltrans wanted to understand performance measures and data used by Metropolitan Planning Organizations (MPOs) and transit agencies to help it develop statewide measures. This report serves as a summary reference guide to help Caltrans understand the numerous and diverse performance measures used by MPOs and transit agencies in California. First, investigators review the available literature to identify a complete transit performance framework for the purposes of organizing agency measures, metrics, and data sources. Next, they review the latest transit performance measures documented in planning reports for the four largest MPOs in California (San Francisco Bay Area, Los Angeles, San Diego, and Sacramento). Researchers pay special attention to the transit performance measures used by these MPOs, because these measures are available for the majority of California's population. Finally, investigators summarize 231 performance measures used by a total 26 local transit agencies in the State of California, based on transit planning documents available on the internet.

Describe Implementation of Research Outcomes (or why not implemented)
