

# Choosing What Class to Take When in the MSTM Program

The MSTM program leaves students some flexibility to choose which classes to take each session, but you will need to plan carefully to make sure you complete all the requirements within three years.

Below are three sample plans for students who begin the MSTM program in the fall semester. Each plan lays out a path for students to complete the degree in three years (taking short breaks for two sessions along the way).

If none of the plans below fit your preferences, you should prepare your own proposed plan and consult immediately with Education Director Asha W. Agrawal to ensure that your plan is feasible.

## Option #1: MSTM + Security and Emergency Management

### Certificate Fall 1

- Session A: MTM 201. Fundamentals of Transportation Mgmt.
- Session B: MTM 215. Transportation System Planning and Development

### Spring 1

- Session A: MTM 226A. Emergency Mgmt. Issues for Transportation Professionals
- Session B: MTM 226B. Security Issues for Transportation Professionals

### Fall 2

- Session A: MTM 214. Transportation Policy and Regulation
- Session B: No class (OR take an "extra" elective)

### Spring 2

- Session A: MTM 202. Introduction to Transportation Funding & Finance
- Session B: MTM 217. Leadership and Mgmt. of Transportation Organizations

### Fall 3

- Session A: No class (OR take an extra elective)
- Session B: MTM 283. MSTM Capstone - Project Design

### Spring 3

- Session A: MTM 203. Transportation Marketing and Communications Mgmt.
- Session B: MTM 290. MSTM Capstone - Evaluation Report

## Option #2: MSTM + High-Speed Rail Certificate

### Fall 1

- Session A: MTM 201. Fundamentals of Transportation Mgmt.
- Session B: MTM 215. Transportation System Planning and Development

### Spring 1

- Session A: MTM 203. Transportation Marketing and Communications Mgmt.
- Session B: MTM 217. Leadership and Mgmt. of Transportation Organizations

### Fall 2

- Session A: MTM 245. High Speed Rail Mgmt. I
- Session B: MTM 246. High Speed Rail Mgmt. II

### Spring 2

- Session A: MTM 202. Introduction to Transportation Funding & Finance
- Session B: No class (OR take an extra elective)

### Fall 3

- Session A: MTM 214. Transportation Policy and Regulation
- Session B: MTM 283. MSTM Capstone - Project Design

### Spring 3

- Session A: No class (OR take an extra elective)
- Session B: MTM 290. MSTM Capstone - Evaluation

### Report Option #3: MSTM + selected electives

#### Fall 1

- Session A: MTM 201. Fundamentals of Transportation Mgmt.
- Session B: MTM 215. Transportation System Planning and Development

#### Spring 1

- Session A: MTM 203. Transportation Marketing and Communications Mgmt.
- Session B: MTM 217. Leadership and Management of Transportation Organizations

#### Fall 2

- Session A: MTM 214. Transportation Policy and Regulation
- Session B: MTM 250. Transportation and the Environment

#### Spring 2

- Session A: MTM 202. Introduction to Transportation Funding & Finance
- Session B: No class (OR take an extra elective)

#### Fall 3

- Session A: No class (OR take an extra elective)
- Session B: MTM 283. MSTM Capstone - Project Design

#### Spring 3

- Session A: MTM 236. Contemporary Issues in Transportation 1
- Session B: MTM 290. MSTM Capstone - Evaluation Report

---

1 The topic of this course will be managing new technologies in the transportation industry.
