

Who Keeps America Moving by Trains?

MTI Elementary Poster Contest

(Grades 1-6)

Every day, freight and passenger trains travel across the country, connecting our communities and delivering the goods we rely on. But behind every train is a dedicated team of talented people—like conductors, engineers, mechanics, dispatchers, and safety inspectors!

Could you be one of the people who keep America moving on rails?

This year's contest challenges YOU to learn about and celebrate the amazing people and careers behind freight and passenger rail! Use your art and imagination to show us who keeps America moving by trains and why their work is so important to our communities.
