

# Academic Poster Presentation (for 1st & 2nd graders)

---

<b>Overview</b>	<b>1</b>
<b>Poster Presentation for 1st &amp; 2nd Graders</b>	<b>1</b>
<b>Poster Template</b>	<b>2</b>

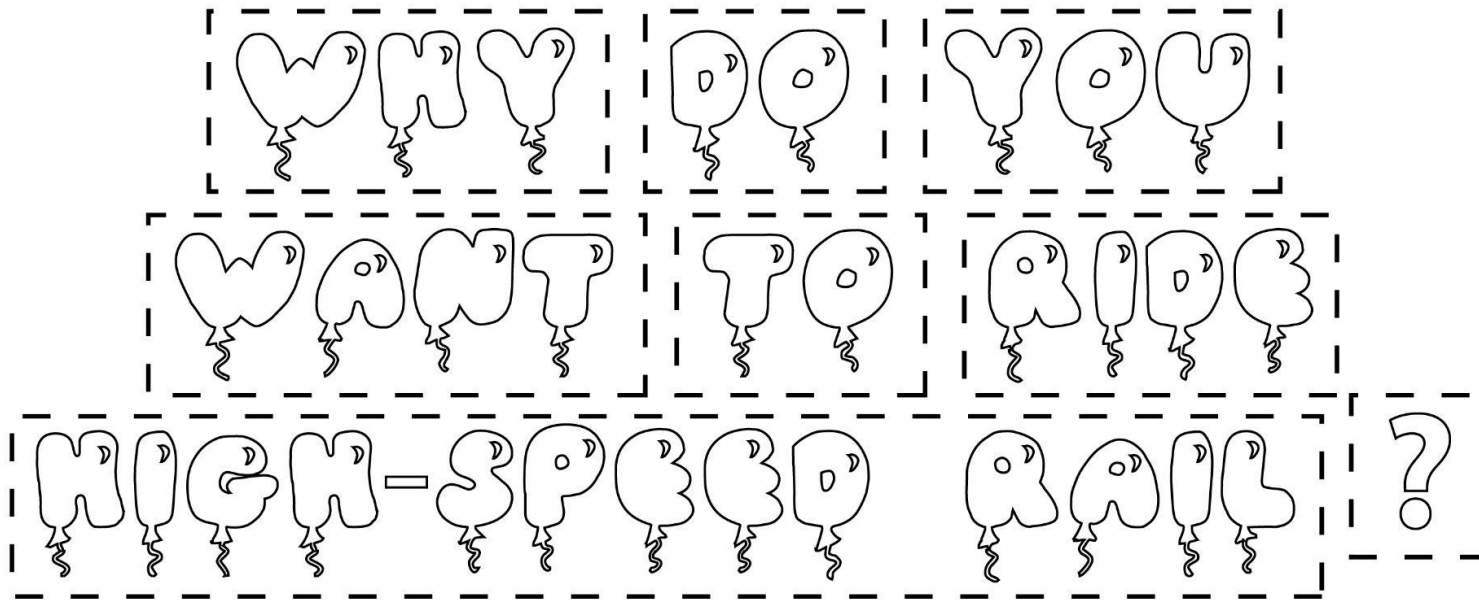

## Overview

- Students design a compelling presentation highlighting what they learned in this unit, including:
  - The benefits of train travel to kids
  - The benefits of train travel to the environment

## Poster Presentation for 1st & 2nd Graders

1. Decide what your poster is about. You can focus on the benefits of train travel to kids or to the environment.
2. Prepare a piece of blank paper, a pair of scissors, and some glue.
3. Choose the images for the template provided that will help you explain your topic. After you have decided, start cutting along the dotted lines of each image.
4. Arrange the images you cut on a piece of paper. Once you are satisfied with how they look, you can glue the images on the paper.
5. Share your finished poster with your class. You can share with your classmates what your topic is and why you chose these images.

# Poster Templates

Train travel is **fast**  
**and comfortable!**

We can enjoy the landscape  
changing as we travel.

We can see the  
outskirts of towns.

Train seats are  
**spacious.**

We can walk around, then  
enjoy meals at the dining car.

We can see the  
line follow a river.

We can walk around and  
stretch our legs.

High-speed rail is faster than  
cars, and there is no traffic jam!

Trains connect us to  
interesting cities.
