

gmp Insights: Architecture & Community

Join us for a reception and fireside chat complementing our On the Right Track: The Transformative Potential of Rail webinar series in downtown San José.

Tobias Keyl from renowned Hamburg-founded international architecture firm Gerkan, Marg & Partners (gmp) will join MTI in an exciting in-person discussion of transformative transportation projects from Germany, China, and around the world. Explore gmp's impressive portfolio of work and hear about how they design transit stations and airports as revolutionary hubs of community and connection that advance safety, sustainability, and economic impact.

Enjoy an informal reception and discussion and network with local professionals. Don't miss this unique opportunity to meet global experts and expand your connections.
