

Industry Advisory Board Feedback on Autonomous Transportation Workforce Training Project

Thank you for serving on our Industry Advisory Board. We highly value your expertise and perspective on our Autonomous Transportation Training Initiative. Your feedback will help inform future development, expansion, and continued alignment with industry needs. This form includes five open-ended questions and should take approximately 10–15 minutes to complete.

When you submit this form, it will not automatically collect your details like name and email address unless you provide it yourself.

* Required

1. **Overall Program Feedback:** Please provide your overall feedback on the training program (EEE materials, CE materials, hands-on activities, and dissemination strategy).

- What are the strongest aspects of the program?
- What aspects need improvement?

*

Enter your answer

2. **Technical Content (EEE & CE Materials):** From your industry perspective, please comment on the technical content.

- Are there important topics that should be added?
- Are any topics too advanced, too basic, or missing?
- Are there emerging technologies we should integrate?

*

Enter your answer

3. **Hands-On Activities & Lab Component:** Please provide feedback on the hands-on components and lab activities.

- Do the activities help students to get familiar with real-world AV system development?
- How can we increase industry relevance?
- Are there specific tools, platforms, or datasets we should incorporate?

*

Enter your answer

4. **Future Extensions & Program Growth:** Please share suggestions for future expansion of this program.

- New modules or workshops
- Industry certifications
- Internships or workforce pathways
- Integration with industry standards or tools
- K–12 or broader outreach ideas

*

Enter your answer

5. **Industry Alignment & Workforce Relevance:** From your professional perspective, how can this training initiative better align with current and emerging workforce needs in autonomous transportation?

- Are there technical competencies that should receive greater emphasis in future offerings?
- Are there industry trends or regulatory considerations that should be incorporated?
- What skills or knowledge areas will be most critical for students entering the AV sector in the next 3–5 years?

*

Enter your answer
