The Spanish Case: Transformacion Rápida

EDUARDO ROMO

*Principal, Technology for Railways and
Engineering Solutions (TRES, LLC)
President, Fundación Caminos de Hierro*

Eduardo Romo is an international expert in railway systems with over 35 years of experience carrying out more than 100 railway projects. As a senior rail engineer he has led the planning and design of a number of sections and components of more than a dozen high-speed rail lines in Spain, other European countries, and the United States. Now based in Oakland, he is Principal at Technology for Railways and Engineering Solutions (TRES, LLC), President of non-profit Railways Expertise Centre Fundación Caminos de Hierro, Vice Chairman of UIC Intercity and High-Speed Committee, and Coordinator of Organizing Committee for International Conference on Engineering for HSR.
