“The program I got to attend at SJSU and getting to go to the NFA opened so many doors for me and really set me forward on my path.

Thank you for helping many kids like me.

This was a challenging and **special** experience for Olivia. In addition to the actual content of the class, (which made solutions to global challenges a topic of our dinner conversations), Olivia was **exposed to new technologies** and new ways of thinking about transportation's past, present and future. What's more, this experience gave her: a taste of life on a college campus in a low-stakes environment, exposure to using Canvas as a learning platform, exposure to a wider variety of jobs in transportation than we ever knew existed, and **many unique opportunities.**
