Deputy Director, MTI National  
Transportation Security Center**

**MTI RESEARCH SNAPS PRESENTS**

# **Transit and COVID-19: How Its Impact Differs from Other Emergencies**

*Thursday, April 9, 2020*

*10-10:30AM*

<https://sjsu.zoom.us/j/217674685>

COVID-19 is a contagious disease in the same family as SARS, and with similar properties to H1N1/swine flu. Yet COVID-19 has caused community sheltering in place and drops in fare-box revenues, and sales and gas taxes. This webinar will discuss what makes COVID-19 different and what to expect in recovery.
